About

APES OF AI provides AI engineering, automation, and secure web development for government and commercial clients. We deliver practical, production-ready solutions that improve efficiency and decision-making.

Core Competencies

- **AI Engineering** — Custom models, fine-tuning, MLOps.
- **AI Automation** — Agents, workflow automation, decision support.
- **Web Development** — Secure, accessible sites; APIs; modernization.
- **System Integration** — Cloud/on-prem, DevSecOps, CI/CD.
- **Acquisition Support** — RFP/RFI/SOW drafting and compliance.
- **Managed Services** — Hosting, monitoring, analytics.

Differentiators

- Rapid AI and automation delivery.
- Prototype-to-production execution.
- Small-business agility with hands-on technical leadership.

Past Performance

- Delivered AI and automation tools for commercial clients.
- Built secure, scalable web applications.
- Provided tailored technical solutions and documentation.

Engagement Models

Time & Materials · Milestones · IDIQ/BPA Support · Pilot-to-Production · SaaS
